 We are seeking for membership of IKD, while we find the international work very important and will do our job together with the other Nordic countries, to find a legislation for all, included the Baltic countries .

--------------------------------	-------------------------------------

Comments on Regulation, if any:
 We really need this Regulation in Denmark.
 We have several cases in the association from customers, who have been ripped of by agencies without any kind of skills. None of the cases involved agencies from our organization, but we have tried to help those people anyway. Even some of the old and agencies with good references have shown their real mentality, and are involved in cases showing that the Regulations are needed as soon as possible.

General Comments & Proposals, if any:
 We will stand behind any Regulation and hope, that this will be for all countries in Europe.
 We seek the membership of IKD with open mind and spirit and hope, that we can be accepted in this meeting in Madrid by all representation by the IKD-family.
 If we are accepted, we will pay our union dues during the meeting in Madrid to the treasurer.
 Stig Andersen, President.
